La Pêche awarded Close to \$2.5 million for repairs to Chemin Riverside

La Pêche, September 5, 2020 – The Municipality of La Pêche is pleased to announce that it has been awarded \$2,421,983 under the Redressement des infrastructures routières locales (RIRL) component of the Government of Québec's assistance program for local road projects. The grant will be used to repair Chemin Riverside between Chemin Rockhurst and the Municipality of Chelsea.

On behalf of City Council, I would like to thank the entire municipal government for their work in securing this historic grant and for their dedication to bringing home additional grants from higher levels of government. We also extend our thanks to MNA Robert Bussière and his team for their hard work and collaboration in advancing projects that make a difference to our community, such as the École au Cœur des Collines expansion, CLSC relocation, CHSLD expansion, repairs to Route 366, and finding investments to expand Internet coverage.

Guillaume Lamoureux, maire

Citizens in La Pêche have been waiting for this important project for a long time. I am therefore pleased with the financial assistance announced today, allowing work to be carried out on the municipal road network. It shows our willingness to support locals.

MNA Robert Bussière
